Weather-Based Recommendations

Studying

- Use fans or air conditioning to keep the study area comfortable.
- Consider using natural light for photography or video calls to avoid direct sunlight exposure.

Buying from market

- Bring an umbrella or wear protective clothing to shield yourself from direct sunlight and rain.
- Opt for indoor shopping options if possible, or plan your visit during cooler hours of the day (early morning or late afternoon).

Gym

- Hydrate properly before and after your workout to avoid heat exhaustion.
- Use cooling clothing or gear to keep yourself comfortable during physical activities.

Visiting friend

- Check the weather forecast for the friend's location before heading over, and plan accordingly if rain is predicted.
- Consider alternative indoor activities, such as playing games or watching a movie together, if the weather conditions are unfavorable.

Alternative Plans

If the weather conditions are unfavorable, consider the following backup suggestions:

- For studying: Move to an indoor location with better lighting and fewer distractions.
- For buying from market: Postpone your shopping trip until a later day when the weather is more conducive.
- For gym: Work out at home or reschedule for a later time when the weather improves.
- For visiting friend: Communicate with your friend about rescheduling or finding an indoor activity to enjoy together.
